Enraged Moves:  
After its HP drops past one third remaining, the final Pokémon of a Dynamax Adventure gets more aggressive. The foe will start attacking more frequently. Every species acts in its own way.

Timing of Enraged Moves:  
Thesesymbols indicate the enraged move's timing:  
• **[double attack]** means that the foe will follow up its first attack with its enraged move.  
• **[moves last]** means that after all Pokémon have acted, the foe will use its enraged move just before the turn ends.  
• **[once instant]** means that the foe will use its enraged move only once, immediately after it gets desperate.\*
